

Manjula Wijesundera

Dear Parent / Guardian

*Thank you for your interest in **Little Minds Montessori** and visiting our website which will give you a brief insight about our school and what we have to offer you and your child.*

Our School introduces children to the joy of learning at a young age by creating a happy, friendly atmosphere which gives them confidence, encouragement and the enthusiasm necessary for their future learning....

The Montessori method is used to arouse desire to learn, and provides the stimulus for academic, social and physical development.

No matter how much you read or hear, only by you visiting our program and becoming a part of the environment, you will be able to make a wise and a well informed decision for the future growth of your most precious possession – Your Child...

We urge you to give as much time in selecting a school for your child to learn and grow in, as you would do when selecting a house to live in.

Together with the Board of Management I warmly welcome you to visit our school to see our children in action whilst looking forward to the opportunity of serving you and your child.

Thank you.

Sincerely,

Manjula Wijesundera

Montessori / Program – Directress.
